

The Skew Solution

A Masterclass with Woodturning's Sharpest Tool

This intensive 5-day class is designed specifically for turners who want to build confidence and stop avoiding the skew chisel. By combining targeted technical exercises with structured, skew-centric projects, this course cultivates precise tool control and replaces hesitation with confidence.

Skill-Building Drills:

- Perfecting smoothing cuts
- Cutting clean steps
- Slicing crisp V-cuts
- Shaping flawless beads

Hands-On Projects:

- Classic honey dipper
- Kitless fancy stick pen
- Heavy shop mallet
- Windsor tri-leg stool.
